Re: E-01345A-16-0036 I can only assume that any commissioner that is beholden to APS (the majority of the commissioners) will be recusing themselves from this, and any other future rate case that involves APS. After all, it is the only morally right thing to do, as you know. You see, as it stands now we ratepayers can only assume that you will be voting in favor of APS EVERY TIME, since they paid the bills for you to get into your \$80K+ positions. It's only logical since the commissioner positions have turned political. Sad! So, since we know that you will be doing the only morally right thing, who will be determining the present, and future APS rate cases? Larry Woods Sun City West APS Ratepayer

Subject: Reject the APS attack on consumers

Dear Commissioners Arizona Corporation Commission,

As an Arizona ratepayer, I am deeply troubled by the extreme proposal submitted by APS in docket E-01345A-16-0036.

The proposal to move over a million customers onto mandatory demand charges is unprecedented and will require customers to constantly monitor their energy use out of fear of exorbitant charges.

Further, consumers have no way to determine when these surge prices are triggered.

The elimination of net metering is intended to penalize customers who intend to make substantial private investments to reduce energy and contribute to more resilient Arizona energy future. This would mean the loss of thousands of jobs in addition to consumer choice, and is a brazen attempt by a monopoly utility to eliminate free market competition.

I call on you to reject this proposal, and any other that seeks to impose discriminatory charges on ratepayers to pad monopoly utility profits. Arizona residents will be watching your actions on this issue.

Regards,

Edna Gray
